What people are saying:

"I really appreciate the quality of musicianship. The diversity of instruments (violin, keyboard, harp, Swedish nyckelharpa, and guitar) and vocals are very impressive and beautiful. Their music blends together very nicely. I always look forward to hearing their music!"

-- Jay Steele, Pianists and Accompanist

"... the Swiss Army knife of folk music instruments!"

--Ben Dorsay, Pianist

"Sometimes it seems a bird is soaring in the sky; other times, morning in a garden, or evening by a lake, or dancing in a warm, crowded pub. But there's definitely something multi-sensory going on here. They *pronounce* their music, enunciating each phrase with earnestness. You can't help but feel something. That's what makes every piece come alive. Thanks for sharing your gifts! Your love for music and your audience is obvious."

--Don Ramie, Artist
